

Sensors

Flame Sensor (IR-based Flame Detector): Detects fire using infrared (IR) light.

Rs 280

<https://www.daraz.com.np/products/lm393-4-pin-ir-flame-detection-sensor-module-fire-detector-infrared-receiver-module-for-arduino-diy-kit-i128756984.html>

MQ gas sensor (MQ-2, MQ4, MQ-6): Detects LPG or methane gas leaks.

Rs 450

<https://www.giganepal.com/product/mq2-gas-sensor/>

Arduino UNO: Controls the whole system, reads sensors and activates outputs.

Rs 1583

<https://www.daraz.com.np/products/arduino-uno-with-usb-cable-i28093.html>

<https://www.daraz.com.np/products/arduino-uno-with-usb-cable-i28093.html>

Relay Module: Switches ON the water pump safely using Arduino's signal.

<https://www.giganepal.com/categories/electronics-components/relay-module/>

Rs 310

Water pump: sprays water automatically when fire is detected.

Rs 120

<https://www.daraz.com.np/tag/dc-submersible-water-pump/>

Buzzer: Sounds like an alarm for fire or gas leaks.

<https://www.daraz.com.np/tag/electric-buzzer/>

Rs 117

Breadboard: Used to connect components without soldering.

Rs 216

<https://www.daraz.com.np/tag/bread-board-breadboard/>

Jumper wires connect all parts together on the breadboard.

120 pics for Rs 654 divide yourself.

Power supply (optional): provides power to Arduino and pump water.

https://img.drz.lazcdn.com/static/np/p/bb118691421b1da64d7e5c78dd54ab38.png_400x400q75.avif

Rs 228

Resistors: Stabilizes sensor signals if needed

<https://www.daraz.com.np/products/1k-resistor-10pcs-i128939919.html?spm=a2a0e.searchlist.list.9.167b4b22YqNNn3>

Rs 27

Estimated Cost = Rs 3352
